

CYCLING KARST

Program

Divača - Škocjan caves- surrounding Karst villages - Kozina - Divača (approx. 30 km and 370 altitude metres)

Cycling Karst in an unforgettable cycling experience. Only a few countries can boast of the **natural phenomenon of exceptional global value**. Today you can cycle to the beautiful **Škocjan Caves**, which have been included in the UNESCO World Heritage List since 1986. If you wish, you can tour these spectacular and amazing caves before continuing on cycling around the colourful landscape. The **villages of Karst** are true »food« for the eyes. Full of historical sights and specialties. On the way are many authentic local inns, where the food is prepared on the basis of centuries-old recipes and a rich restaurant tradition. A perfect stop for a lunch break. The way back to Divača continues with **cycling through the enchanting Karst settlements**, past original and old **stone Karst houses** and over lush fields on grey side-roads.

Highlights:

A winding cycling day trip through **unique Karst** with it's wild landscape and phenomenons UNESCO listed, beautiful **Škocjan Caves** are a must
Unique **Karst architecture** and old stone houses
